### STATEMENT OF OBJECTS AND REASONS

From the Reports of the Committees appointed by the Central Government from time to time it is evident that a great majority of the population depends on the indigenous system of medicine so far as their health is concerned. But there is no standard either in education or treatment of the said system of medicine. The Central Government is controlling the Ayurvedic education and treatment merely on the advice given by its Adviser on the indigenous system of medicine. All the Committees on the indigenous systems of medicine have recommended the establishment of an Ayurvedic Medical Council to control the Ayurvedic education and treatment but no action has yet been taken by the Central Government in the matter. This Bill aims to give effect to the recommendations of the said Committees and to control education and treatment in Ayurveda.

A. T. SARMA.
